

POWERED BY LUMIVERSE SOLUTIONS

# The SafeNova - SOCaaS

Our solutions deliver holistic cybersecurity that combines offensive security and defensive tactics to maximize resilience while minimizing risk.

Experience the power of a SOC at your fingertips—contact us today to secure your business with SafeNova SOCaaS.

# SafeNova SOCaaS—Get 360° Protection From the Outside In and Inside Out

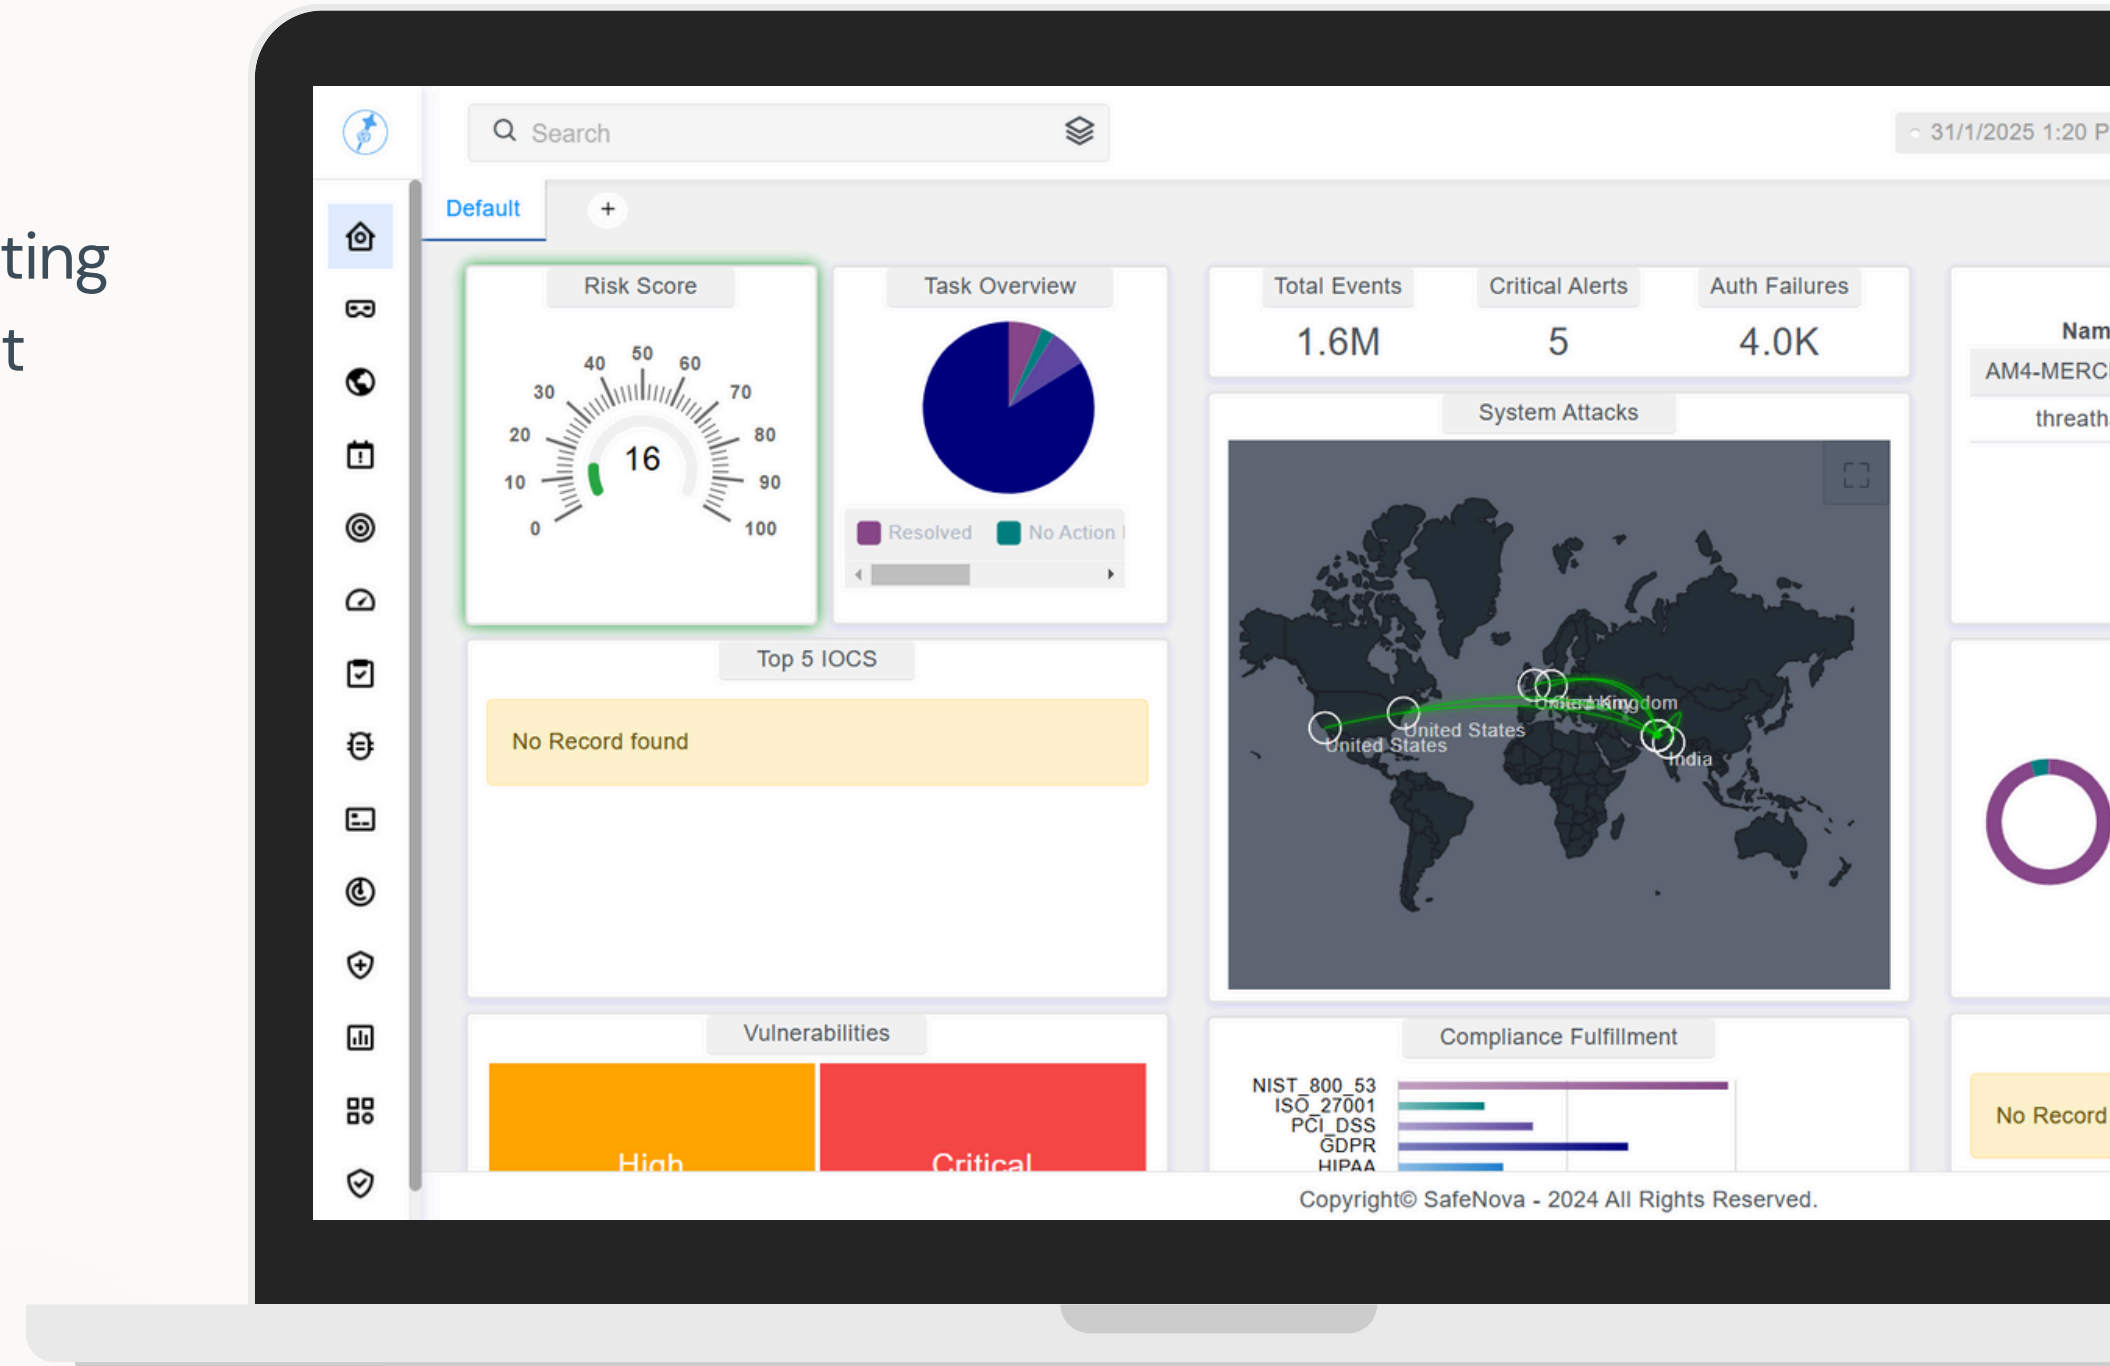

Our solutions deliver holistic cybersecurity that combines offensive and defensive tactics to maximize resilience while minimizing risk.

## Overview

SafeNova aggregates and analyze activities for entire company's infrastructure. It helps organizations in detecting potential threats & vulnerabilities before attacker disrupt business. SafeNova collects security data from network devices, servers, domain controllers, mobile devices.

## Advantages

- Improved and Real-time Threat Detection
- Faster Incident Response
- Better Intelligence for Threat Hunting
- Better Coverage and Threat Visibility
- Improved Incident Response and Reporting

Experience the power of a SOC at your fingertips—contact us today to secure your business with SafeNova SOCaaS.

# Key business challenges

Cyber threats evolve—your defenses should too. Our solutions are built to adapt to your environment, keeping you resilient and ready.

Lack of visibility to help identify genuine risk.

Extract value faster from existing investments and data.

Use Case Development & Management

Perpetually changing threat landscape.

24/7/365 Monitoring

Cybersecurity expertise is hard to find.

Tuning & Reporting

A need for a wholistic security monitoring, response and reporting program.

Deep Expertise in SIEM & SOAR

Experience the power of a SOC at your fingertips—contact us today to secure your business with SafeNova SOCaaS.

# Use Cases for Regulatory Compliance

Rapid technological advancements and constant innovation foster growth but create vulnerabilities, as new technologies often outpace the development of adequate controls, leaving loopholes for fraudsters to exploit.

**RBI**

Secure data, monitor transactions, report incidents, maintain audit trails.

**SEBI**

Monitor trades, secure investor data, automate compliance, mitigate threats.

**IRDAI**

Secure data, detect fraud, ensure continuity, maintain audit readiness.

**Cert-In**

Respond swiftly, manage risks, train teams, detect threats instantly.

**ISO Standards**

Assess risks, control access, enforce policies, protect data, ensure compliance.

**DPDP ACT 2023**

Manage and track user consent for data processing, ensure data minimization, lawfully transfer personal data across borders, and promptly notify authorities and users of breaches within deadlines.

Experience the power of a SOC at your fingertips—contact us today to secure your business with SafeNova SOCaaS.

# Protect Your Business 24/7 with SafeNova SOCaaS—Cybersecurity Without Limits

Advanced, Scalable, and Always On—Your Security Operations Center is Just a Click Away.

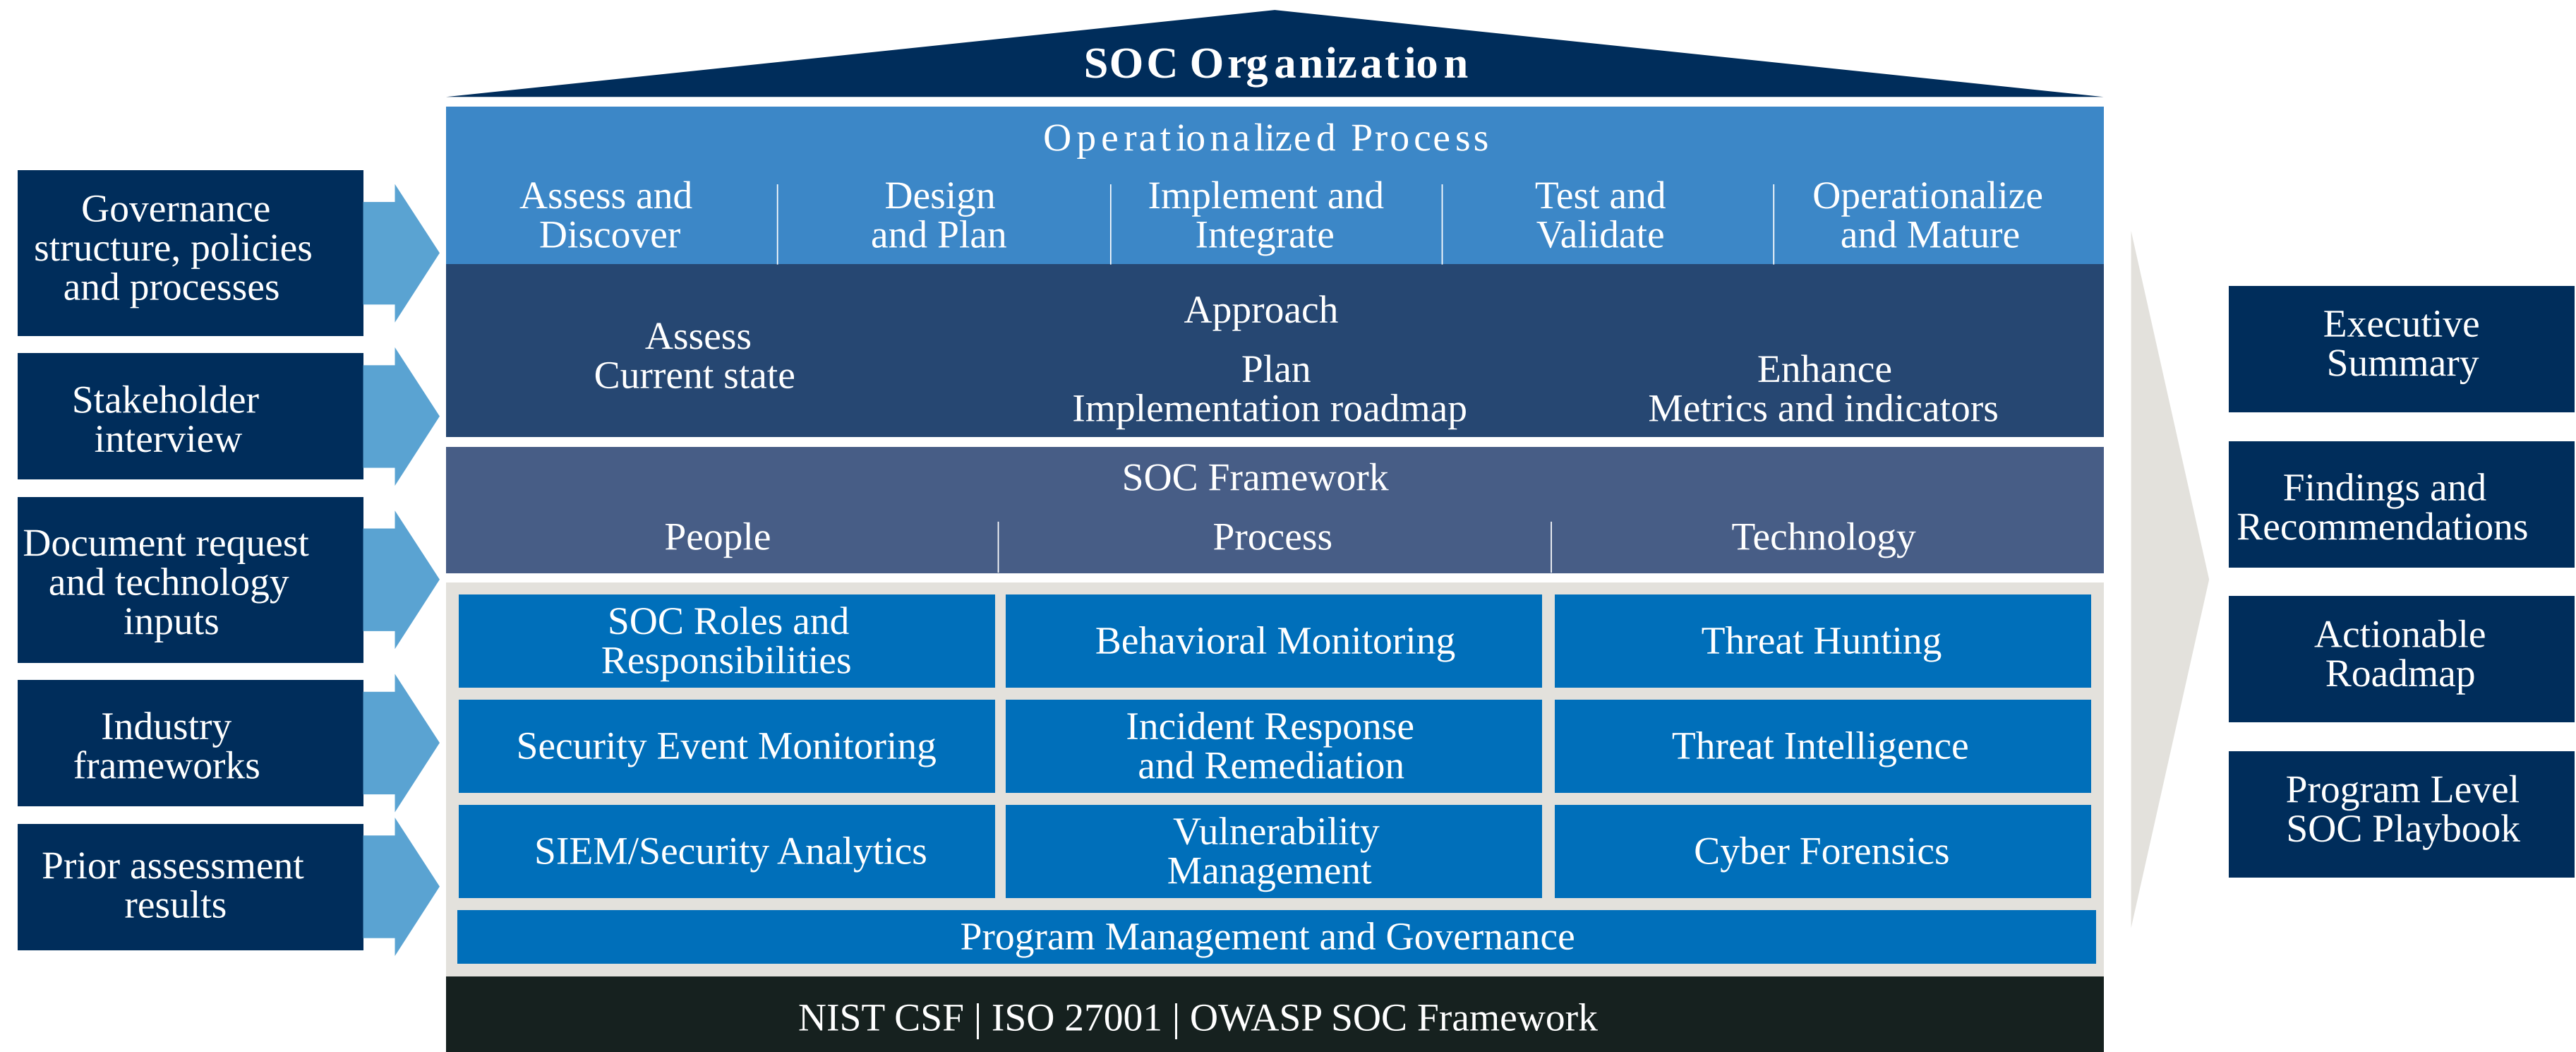

Experience the power of a SOC at your fingertips—contact us today to secure your business with SafeNova SOCaaS.

# SafeNova SOCaaS—Cybersecurity Capabilities

Our tailored assessment methodology evaluates the current, point-in-time state of your SOC capabilities along with the processes in place to effectively mature your security operations as threats continue to evolve.

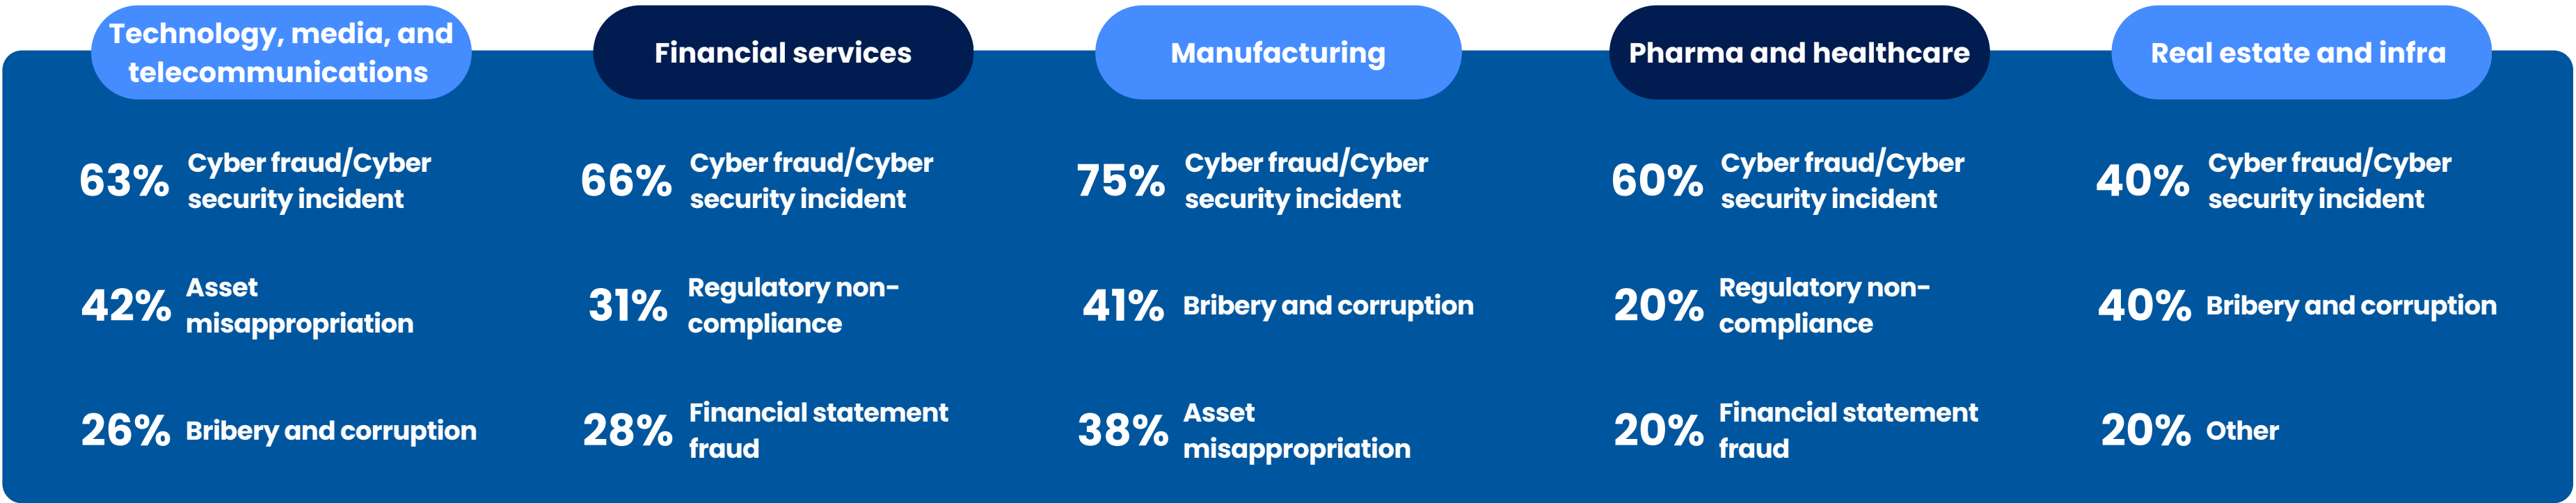

Experience the power of a SOC at your fingertips—contact us today to secure your business with SafeNova SOCaaS.

# The ascent of fraud and its architects in the world of cyber security

Rapid technological advancements and constant innovation foster growth but create vulnerabilities, as new technologies often outpace the development of adequate controls, leaving loopholes for fraudsters to exploit.

## Calculating the Cost of Cyber Attacks

82 Million Records Breached Last 12 Months	30 Million People Impacted Last 12 Months	11 Million Dollars Average Breach Cost Last 12 Months
--	---	---

## Questions to Ask Yourself

- Are you at risk for ransomware?
- Do you know how many elevated user credentials are in your environment?
- Are infrastructure and application logs consolidated and reviewed timely for security events?
- Do you have the resources to respond to an incident?

Experience the power of a SOC at your fingertips—contact us today to secure your business with SafeNova SOCaaS.

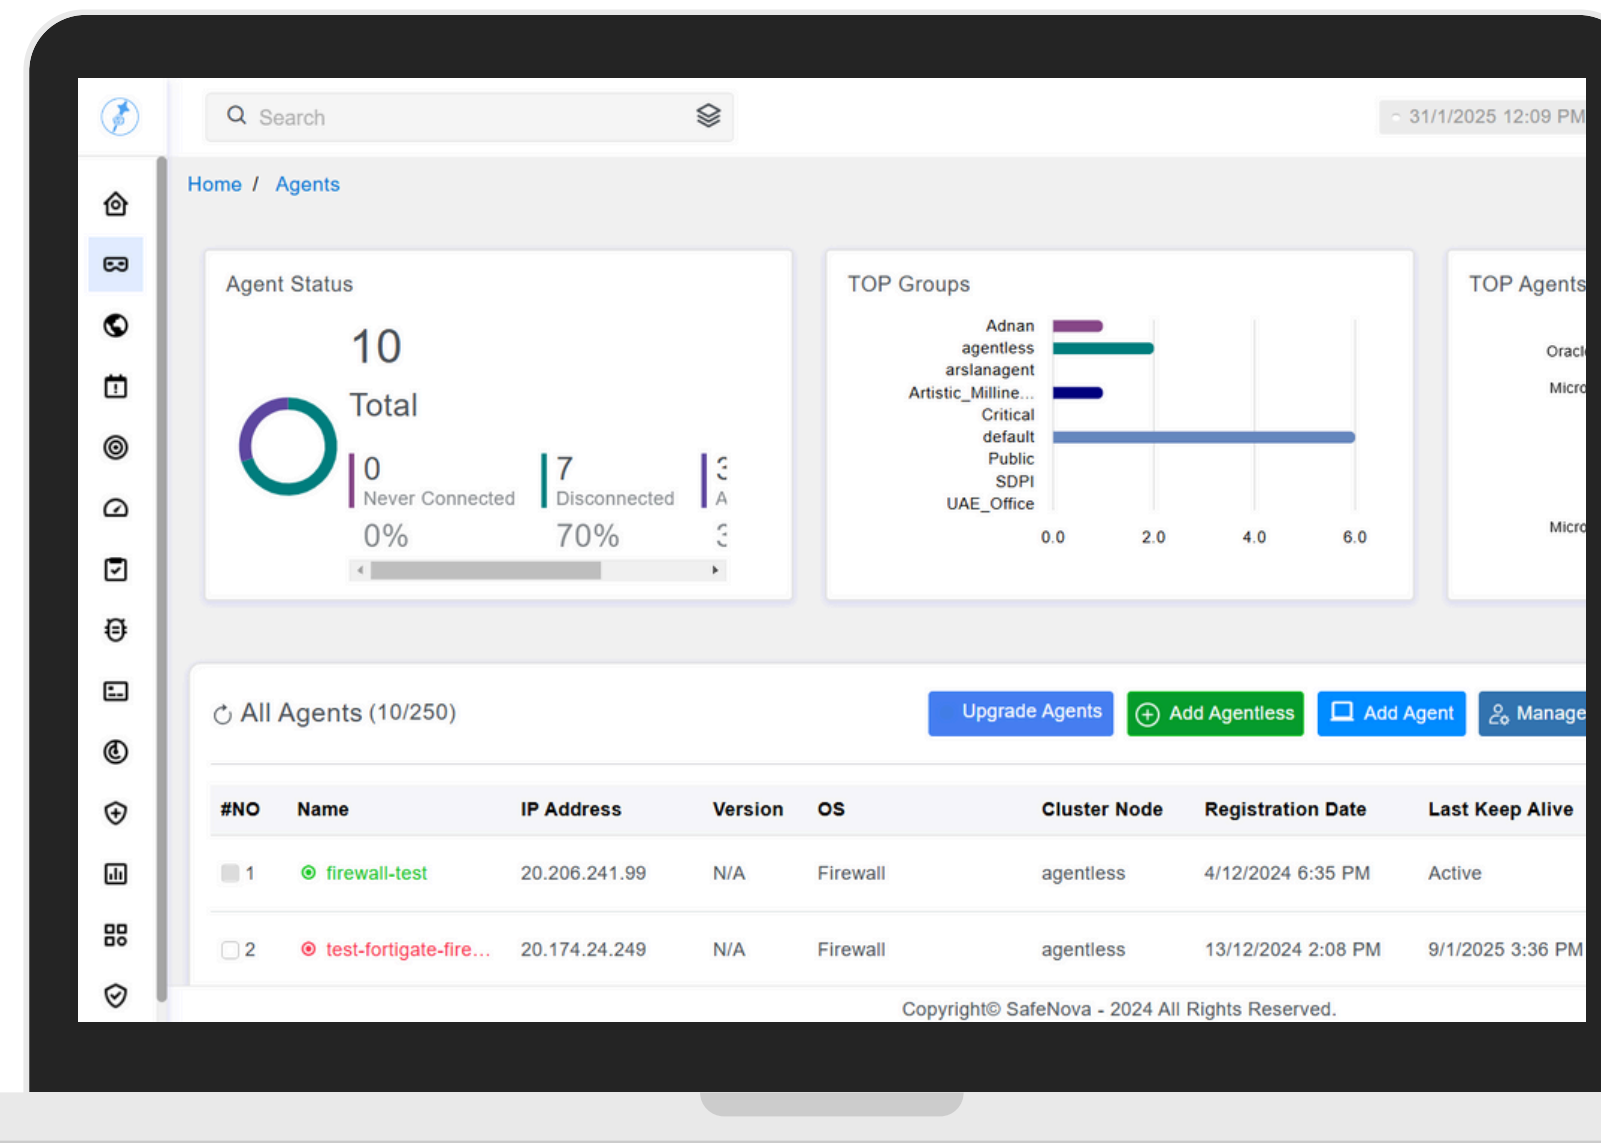

# Try SafeNova - SOCaas for **FREE**

Get everything you need to stay secure, compliant, and competitive—from the inside out and outside in—all from one trusted partner.

Test it at your premises, with the small group, or in your production environment

**FREE TRIAL FOR 15 DAYS !!**
